DATA STRATEGY TECHNICAL ASSISTANCE CALENDAR

This document outlines the technical assistance (TA) sessions available to grantees from June through December 2026. Please review the full schedule and reserve time on your calendar to attend the training relevant to your work. Sessions are generally scheduled on a biweekly cadence, though scheduling may vary.

Upon return in 2027, additional workshops and office hours will be offered to support grantees appropriately. Updated session details for the 2027 program year will be shared prior to the end of 2026 to support advance planning.

Session Descriptions

Kick-Off Event

📅 July 21, 2026 | ⏰ 9:00 – 10:30 AM | 📍 Virtual

This opening session will orient grantees to the upcoming technical assistance offerings and GOC's expectations for data reporting. Participants will review the released guidance document, the full TA schedule, and clarifications on expected submissions to complete between sessions.

RBA Refresher and Progress Measure Development

📅 August 4, 2026 | ⏰ 10:00 – 1:30 PM | 📍 Virtual | 🌐 Session Link Here

This session will provide foundational knowledge and a refresher on the Results-Based Accountability framework, with a focus on how grantees can apply RBA to their current data and reporting work. Grantees will review the difference between outcome indicators and progress measures, why that distinction matters, and how to assess whether their current measures accurately reflect the work their partners are doing. The session will also help grantees identify the most relevant measures for the October 30 submission, which measures may create challenges, and how to update measures when partner activities or scopes of work have changed.

Getting Real with Data — Data Strategy, Infrastructure & GOC Alignment

📅 September 3, 2026 | ⏰ 1:00 – 4:00 PM | 📍 Virtual | 🌐 Session Link Here

This session will help grantees connect RBA to their broader data strategy, including how it aligns with logic models, existing tools, and continuous improvement practices. Participants will reflect on how they are currently collecting data from partners, what is working well, and where challenges or gaps remain. The session will also explore what a realistic and sustainable data infrastructure could look like for each organization, as well as how to communicate the value of data collection to partners so that it feels useful, manageable, and connected to shared goals.

Supporting Partners with Turn the Curve

📅 September 14, 2026 | ⏰ 10:00 – 12:30 PM | 📍 Virtual | 🌐 Session Link Here

This virtual workshop covers how to support partners with using Turn the Curve to make data-informed decisions about their efforts. It includes a refresh on the Turn the Curve process, discussion around supporting partners to use Turn the Curve for continuous improvement, the quarterback's role in action plans, and ways to build a culture of RBA.

Scorecard Overview

📅 September 29, 2026 | ⏰ 1:00 – 3:30 PM | 📍 Virtual | 🌐 Session Link Here

This session will provide guidance on how to use the Scorecard platform. It will include an overview of the software, how to create Scorecards, how to enter data and narratives, and specific GOC reporting requirements. The Scorecard platform is used for quarterly reporting of the data from your RBA plan.

Office Hours (Session Link Here)

Office Hours will be held every other Wednesday from 10:00 AM – 11:00 AM. These optional sessions provide grantees with an opportunity to ask targeted questions, receive clarification on training content, and discuss challenges or needs. Representatives from the Governor's Office for Children, Baltimore's Promise, and Clear Impact will be available to provide guidance and ensure grantees receive coordinated support.
