State of Maryland
Directory of Local Access Mechanisms
September 2014

Martin O'Malley, Governor
Anthony G. Brown, Lt. Governor
Anne Sheridan, Executive Director
Governor's Office for Children
301 W. Preston Street, 15th Floor
Baltimore, Maryland 21201
Tel: 410-767-4160 ♦ Fax: 410-333-5248
Please note the definitions of the following terms that are used throughout this directory:

**Child with Intensive Needs:** A child who has behavioral, educational, developmental, or mental health needs that cannot be met through available public agency resources because: (a) The child's needs exceed the resources of a single public agency; and (b) There is no legally mandated funding source to meet the child's needs. (Source: COMAR 14.31.01.02)

**Local Access Mechanism (LAM):** An identifiable structure and method to help families access and coordinate available services and supports, both public and private, to address the full range of need encountered by families with children.

**Navigation Services:** Services for families who need additional assistance beyond a simple referral, including assistance in identifying strengths and needs and obtaining necessary services.  
- **Family Navigation:** Navigation services provided by a legacy parent or primary caregiver who is caring for or has cared for a child with mental health needs and/or developmental disabilities, including a child with intensive needs.  
- **Systems Navigation:** Navigation services provided by a professional or paraprofessional, not necessarily a legacy parent or primary caregiver.

**Single Point of Access:** A single point of entry for families who wish to obtain information or enter the system, regardless of the intensity of the needs of their children.

**Systems of Care:** Systems of Care are family and local community-driven service systems that improve access to services; provide engaging and effective service in a coordinated delivery system; and increase options and system resources in service delivery. Local, integrated systems of care is the connecting of all service delivery systems (mental health, child welfare, juvenile justice, education, substance abuse, housing) in order to create a seamless service delivery system for Maryland's children and youth.

There are three levels at which families in Harford County can access services. Level I (Universal) - All families can call 2-1-1 and receive information regarding requested services. Level II (Targeted Intervention) - families are screened into this level by 2-1-1 or referred directly by an agency or program and connected to a family navigator. The Family Navigator works with the family during the initial telephone call (from 2-1-1 possibly) and assists with linking the family to the necessary resource(s) over the phone or arranges to meet with the family. Level III (Intensive Intervention) - families who request and require intensive intervention are referred directly to the Family Navigator. Families may be referred directly by DSS, DJS, or the Core Service Agency, community-based organizations, or may self-refer.

Additional information about the navigation services:
The family navigator works in collaboration with agencies and other organizations to assist families to access the resources they need in a way that is responsive, strengths-based, comprehensive and family friendly. Equipped with information about resources and referral processes, the Family Navigator is able to link families to identified resources in an efficient and effective manner. This includes assisting families or caregivers in completing forms and following up with other necessary paperwork that can often impede the process. The Family Navigator is a legacy parent who provides support and guidance to families, teaching them ways to become strong advocates for their children. Another important role of the Family Navigator includes support in enhancing the family’s ability to become equal partners in the service planning process for their child.
